

SENDAI CONVENTION FACILITIES GUIDE

SENDAI.

Welcome to the City of Trees 'Sendai'
an International Convention City

It has been over 400 years since the construction of Date Masamune's Sendai Castle. Sendai, known as the City of Trees and as a city of academics, has continued to grow as the center of politics, economics and culture in the Tohoku region.

Sendai boasts easy access being only 91 minutes from Tokyo on the fastest bullet train, and is also directly connected to Asia's hub airport in Korea. It takes only 17 minutes from Sendai Airport to the center of town on the airport access line. The city center can provide convention facilities for large scale conventions but is also able to cater for resort-style conventions at hot spring resorts such as Akiu and Sakunami in the nearby mountains surrounding the city.

Sendai is a city of possibilities and charm looking forward to your visit.

The City of Trees Abundant with Greenery

Sendai fosters state-of-the-art technology in the Tohoku region, as well as charms its visitors with the babbling of the clear waters of Hirose River and its zelkova tree-lined Jozenji Street, representative of the City of Trees. The city also boasts cultural charm with many sculptures integrated into the cityscape.

It is truly a city where the diversity of nature and urbanization come together in harmony.

An Academic Research City

The City of Trees is not only famous for its natural environment but is also renowned as an academic research city. Tohoku University is at the center of academic research in Sendai and always attracts attention in various fields. Tohoku University is aspiring to become a World-Leading University and contributes to the development of humanity through its high quality international education to produce and develop leadership talent in the international community.

A Disaster-Resilient and Environmentally-Friendly City

In order to build a city with advanced disaster prevention ability, we will continue to contribute to disaster prevention by providing information nationally and internationally about our experiences and lessons learnt from the Great East Japan Earthquake which occurred on March, 11, 2011.

Tohoku University has established the International Research Institute of Disaster Science (IRIDeS) in cooperation with research institutes, domestic and foreign universities and is promoting the world's most advanced research on natural disaster science.

An Enhanced Convention Environment

Sendai boasts the Sendai International Center only five minutes by subway from JR Sendai station as well as Yume Messe Miyagi, the largest exhibition hall in the Tohoku region situated in the port area. We have well-equipped facilities to suit every size and type of convention no matter its purpose. We are also able to offer resort-style convention facilities and successfully held the G7 Finance Ministers and Central Bank Governors' Meeting in May, 2016 at the hot spring resort of Akiu, on the outskirts of Sendai.

Urban Infrastructure to Lead Tohoku Growth

Sendai is at the center of politics, economics, academics and culture in the Tohoku region and consists of branch offices and distribution bases for leading national companies, financial institutions and government agencies. Sendai was appointed a strategic special zone for developing new enterprise in a national strategy in August, 2015. Sendai aspires to become 'Japan's easiest to start a new business city' by promoting an environment where conducting business is uncomplicated.

Festivals, Events and Sport

Sendai is a thriving city holding festivals, sporting and other events throughout the year. Among them are nationally acclaimed seasonal traditions such as Sendai Aoba Festival held in May, Sendai Tanabata Festival held in August and Sendai Pageant of Starlight held in December. You can also experience the excitement and enthusiasm of Sendai's professional sporting teams such as Rakuten Eagles (baseball team), Vegalta Sendai (soccer team) and Sendai 89ers (basketball team).

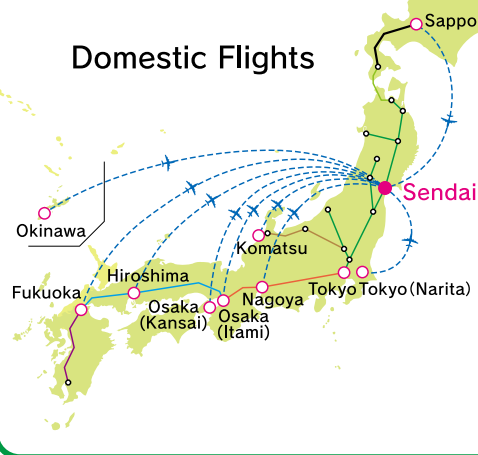

ACCESS

When holding a convention an important factor in increasing the number of participants is accessibility. In addition to the convenience of Sendai being only 91 minutes from Tokyo on the bullet train, we are also connected to nine cities domestically by regular flights and are an easily accessible city. We are also connected with five international cities by regular flights and are becoming a more familiar destination to the East Asian region.

Excursion

Sendai, being the threshold to the Tohoku region, provides convenient accessibility to other prefectures of the region. Why not spend a morning, afternoon or day exploring the cultures and scenic beauty of Tohoku ?

Yamadera, Yamagata

Yamadera is a scenic temple located in the mountains northeast of Yamagata city. The temple grounds extend high up a steep mountainside, from where there are great views down onto the valley. The temple was founded over a thousand years ago in 860. Its popular name, Yamadera, literally means 'mountain temple' in Japanese.

Hiraizumi, Iwate

At the end of the 11th century, the ancient capital of Hiraizumi flourished as the center of a unique Buddhist culture developed by the Oshu Fujiwara family that was based on Pure Land Buddhism. Hiraizumi became inscribed in UNESCO's World Cultural Heritage List on June 26, 2011.

Matsushima Bay, Miyagi

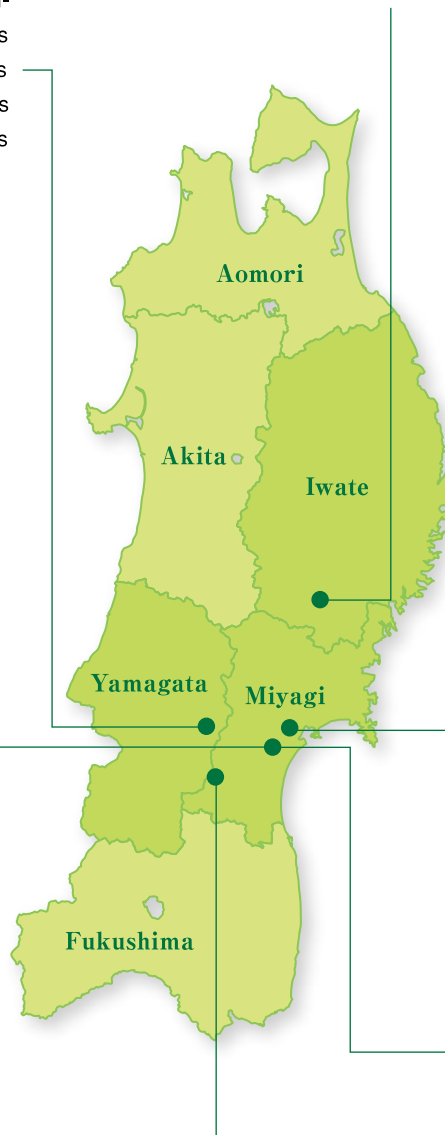

Matsushima is regarded as one of the three most beautiful scenic spots in Japan. You can enjoy the beautiful scenery as well as famous sites such as Zuiganji.

Zuiganji is a prominent Zen temple which was restored by Date Masamune in 1609 and is famous for beautifully gilded and painted sliding doors. Many of the buildings on the site are national treasures.

Zuihoden Mausoleum, Miyagi

As the final resting place of the founder of Sendai, Lord Date Masamune, this gorgeous structure is a sight to behold with its brilliant colors including gold and intricate patterns on finely carved sculptures.

Site of Sendai Castle, Miyagi

Sendai Castle was built by Date Masamune. The stone walls have been carefully reconstructed and there is a statue of Date Masamune on horseback with an excellent view over the city.

Zao Okama (volcano crater), Miyagi

The round lake of the crater is surrounded by three peaks - Kattadake, Kumanodake and Goshikidake. The crater is shaped like a cooking pot - hence the name kama. Depending on the weather and the sunlight the color of the lake changes from emerald green to brown to cobalt blue which gives it the alternative name Goshikinuma - lake of five colors.

Attraction

Entertainment Unique to Sendai

The Sendai Sparrow Dance

The Sparrow Dance is said to have originated in 1603 to celebrate the completion of the walls of Sendai Castle and has been modernized as a dance for the 'Sendai Aoba Festival', a Sendai event started in 1985. The dance has become representative of Sendai due to its popularity with the people of Sendai. The dance can be performed by groups of less than ten to over 100 and can be arranged to suit any stage size.

Oshu Sendai Omotenashi Group Date Busho-Tai Warriors

A popular PR group of Sendai formed to spread the charm of the historic feudal lord Date Masamune and his clan of the City of Trees, Sendai. The group aims to make Sendai well known as the City of Hospitality and is spreading the word both nationally and overseas.

Tohoku Golden Angels

This is the official cheerleading team for the Tohoku Rakuten Golden Eagles Baseball team. The team was founded in 2005 and their activities are centered on dance performances to entertain the spectators in the stands of the home stadium Rakuten Kobo Stadium Miyagi. They cheer the Rakuten Eagles team with the other fans and vow to raise excitement and dreams but also appear in local events.

Three Stringed Instruments Odashima Style

This is a group that teaches how to play the Tsugaru shamisen. They have many titles from national contests. They are expanding to perform overseas and performed at the G8 Toyako Summit and also at an event to celebrate the 35th anniversary of the Japan China Treaty.

Kamo Tsunamura Drums

The creative Japanese drum group 'Kamo Tsunamura Drums' was established in 1996 and takes its name from the fourth feudal lord Date Tsunamura who was a deity of Kamo Shrine, located in Izumi-ku. The group performs approximately 50 stages a year at events in and out of the city including the Aoba Festival. Since 2005 the group has performed overseas in places like Russia, Taiwan, America, Canada, China, Germany and England and is expanding the scope of its activities.

Shibata Siblings

This is a group successful all over the Sendai, Miyagi region. They have a total of 40 wins in national contests. In the group division of a national shamisen contest they are undefeated and have won five consecutive titles.

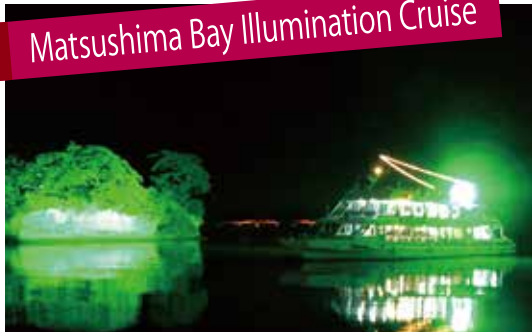

Sendai Philharmonic Orchestra

City of Music Sendai is their slogan. The Sendai Philharmonic Orchestra represents Sendai as a city enthusiastic about music. The orchestra plays a central role in the Sendai International Music Competition and Sendai Classical Festival as well as performing 110 performances a year. After the earthquake the orchestra has developed activities to deliver the power of music to the affected areas.
